Date _____ Period _____

Write the slope-intercept form of the equation of each line.

1) $x - 5y = -36$

2) $3x + 2y = -2$

3) $x - y = 1$

4) $9x + 7y = 35$

Sketch the graph of each line.

5) $x + 5y = -20$

6) $4x - y = -1$

7) $5x + y = -5$

8) $5x - y = -5$

9) $4x + 5y = 25$

10) $2x + y = 3$
